

The Special Education Team is dedicated to the support of all students. Student's individual needs will be addressed to ensure that rigorous performance standards are met. While instilling each child with a love for learning members of the team will provide each student with the tools necessary to meet with academic success. Through this process students will perform on grade level, maintain at least a "C" average in all classes, and improve assessment scores. Professional development programs will be initiated during the year to provide the staff with continued training. Additionally, students will have the opportunity to receive individualized instruction through support programs such as Saturday Academy, Lunch Support, Core+ Tutorial, Accelerated Reading and various after school programs.
